Committees of the International *Gelidium* Workshop v
Sponsors vi
Opening addresses ix
Foreword xiii
List of participants xv

Taxonomy
Intrageneric differences in cystocarp structure in *Gelidium* and *Pterocladia*
by B. Santelices 1

Seaweed resources
Worldwide distribution of commercial resources of seaweeds including *Gelidium*
by D. J. McHugh 19

Ecology and management
Production ecology of *Gelidium*
by B. Santelices 31
Biological criteria for the exploitation of the commercially important species of *Gelidium* in Spain
by J. A. Juanes & A. Borja 45
Gelidium pristoides in South Africa
by R. J. Anderson, R. H. Simons, N. G. Jarman & G. J. Levitt 55

Ecological-physiology
Field studies and growth experiments on *Gelidium latifolium* from Asturias (northern Spain)
by J. M. Rico 67
Photosynthesis of *Gelidium sesquipedale:* effects of temperature and light on pigment concentration, C/N ratio and cell-wall polysaccharides
by M. Torres, F. X. Niell & P. Algarra 77
Physiological basis for the cultivation of the Gelidiaceae
by B. A. Macler & J. R. Zupan 83

Cultivation
Gelidium cultivation in the sea
by R. A. Melo, B. W. W. Harger & M. Neushul 91
Spray system for re-attachment of *Gelidium sesquipedale.* (Clem.) Born. et Thur. (Gelidiales: Rhodophyta)
by J. M. Salinas 107
Artificial sporeling and field cultivation of *Gelidium* in China
by X. G. Fei & L. J. Huang 119
General principles of on-shore cultivation of seaweeds: effects of light on production
by J. L. McLachlan 125

Agars and utilization
Chemical structure and physico-chemical properties of agar
by M. Lahaye & C. Rochas 137
Agars from Chilean Gelidiaceae
by B. Matsuhiro & C. C. Urzúa 149
Agar and agarose biotechnological applications
by R. Amisén 157

Biotechnology
Genetic alleviation of the self-fertilization complication when hybridizing monoecious *Gelidium vagum*
by J. P. van der Meer & M. U. Patwary 167
Actual, potential and speculative applications of seaweed cellular biotechnology: some specific comments on *Gelidium*
by G. Garcia-Reina, J. L. Gómez-Pinchetti, D. R. Robledo & P. Sosa 181

Concluding remarks 195

Index 197
